E lectronic Engineering

+62 82327063194 | m.rifai.gbs@gmail.com | Kendal, Indonesia

PROFILE

An Electronic Engineering student focusing on IoT and control systems. Experienced in integrating various sensors and microcontrollers through precision software development. Possesses a deep understanding of the engineering project development cycle, from simulation to physical implementation in the field.

EDUCATION

**SEMARANG STATE
POLYTECHNIC**
2023-2026 Diploma 3 in Electronics Engineering

**STATE
VOCATIONAL
SCHOOL 2 KENDAL**
2020-2023 REFRIGERATION AND AIR CONDITIONING ENGINEERING

WORK EXPERIENCE

CV Hartono Audio Authorized-Repair and maintenance department 2025
Internship

- Troubleshooting and component repairs on Yamaha amplifiers and electronic musical instruments.
- Analyze circuit damage and perform precision parts replacement.

PT. PANASONIC GOBEL-Production Operator - Lane Urethane 2022
Internship

- Operating manufacturing machines on the refrigerator body insulation production line.
- Implementing occupational safety standards (K3) and industrial work culture (5S) in production areas.

TECHNICAL SKILLS

- Troubleshooting and repairing electronic circuits
- Reading and understanding schematic diagrams
- Measurement and use of measuring instruments

SOFT SKILLS

- Teamwork
- Good communication
- Discipline and responsibility

CERTIFICATE

- BNSP Competency Certificate 2025
- Professional Certification Institution

LANGUAGES

- Indonesian
- English
